Care Transition Pilot

LAC+USC Inpatient and ACN PCMHs

Hospital Course	Inpatient Team	Inpatient Service Coordinator	PCMH Service Coordinator
Hospital Day 1	Identify the patient's PCP		
Near Discharge	Communicate with PCP: status report and identifies discharge follow up needs	Ensure PCP is listed on Team rounding sheet	Contacts patient to: Schedule PCP appt. and f/u labs; Assigns Care Manager
Day of Discharge	Refers patient to PCP for post-discharge care	Sends email to Service Coordinator if discharge date and/or discharge plan is changed	Ensures medical and social needs are met (i.e. DME, transportation assistance, referrals etc.)
Post Discharge			Follows up with patient; Follows up on lab/pathology results.

Benefits of Better Care Transitions

- Coordinated patient-centered care
- Will help reduce length of stay (LOS) in our hospitals
 - Today, LOS in DHS hospitals is longer than the average LOS at comparable hospitals (5.2 days).

Weekly Average Length of Stay*					
	2012 Average	10/22/13	10/29/13	11/5/13	11/12/13
LAC+USC	6.3	7.0	6.6	6.2	6.3
Harbor-UCLA	5.7	7.1	6.2	6.1	5.9
OV-UCLA	4.9	5.0	4.6	5.3	4.9
Rancho	14.0	12.6	18.2	50.3**	6.6

* Discharge Days divided by Total Discharges

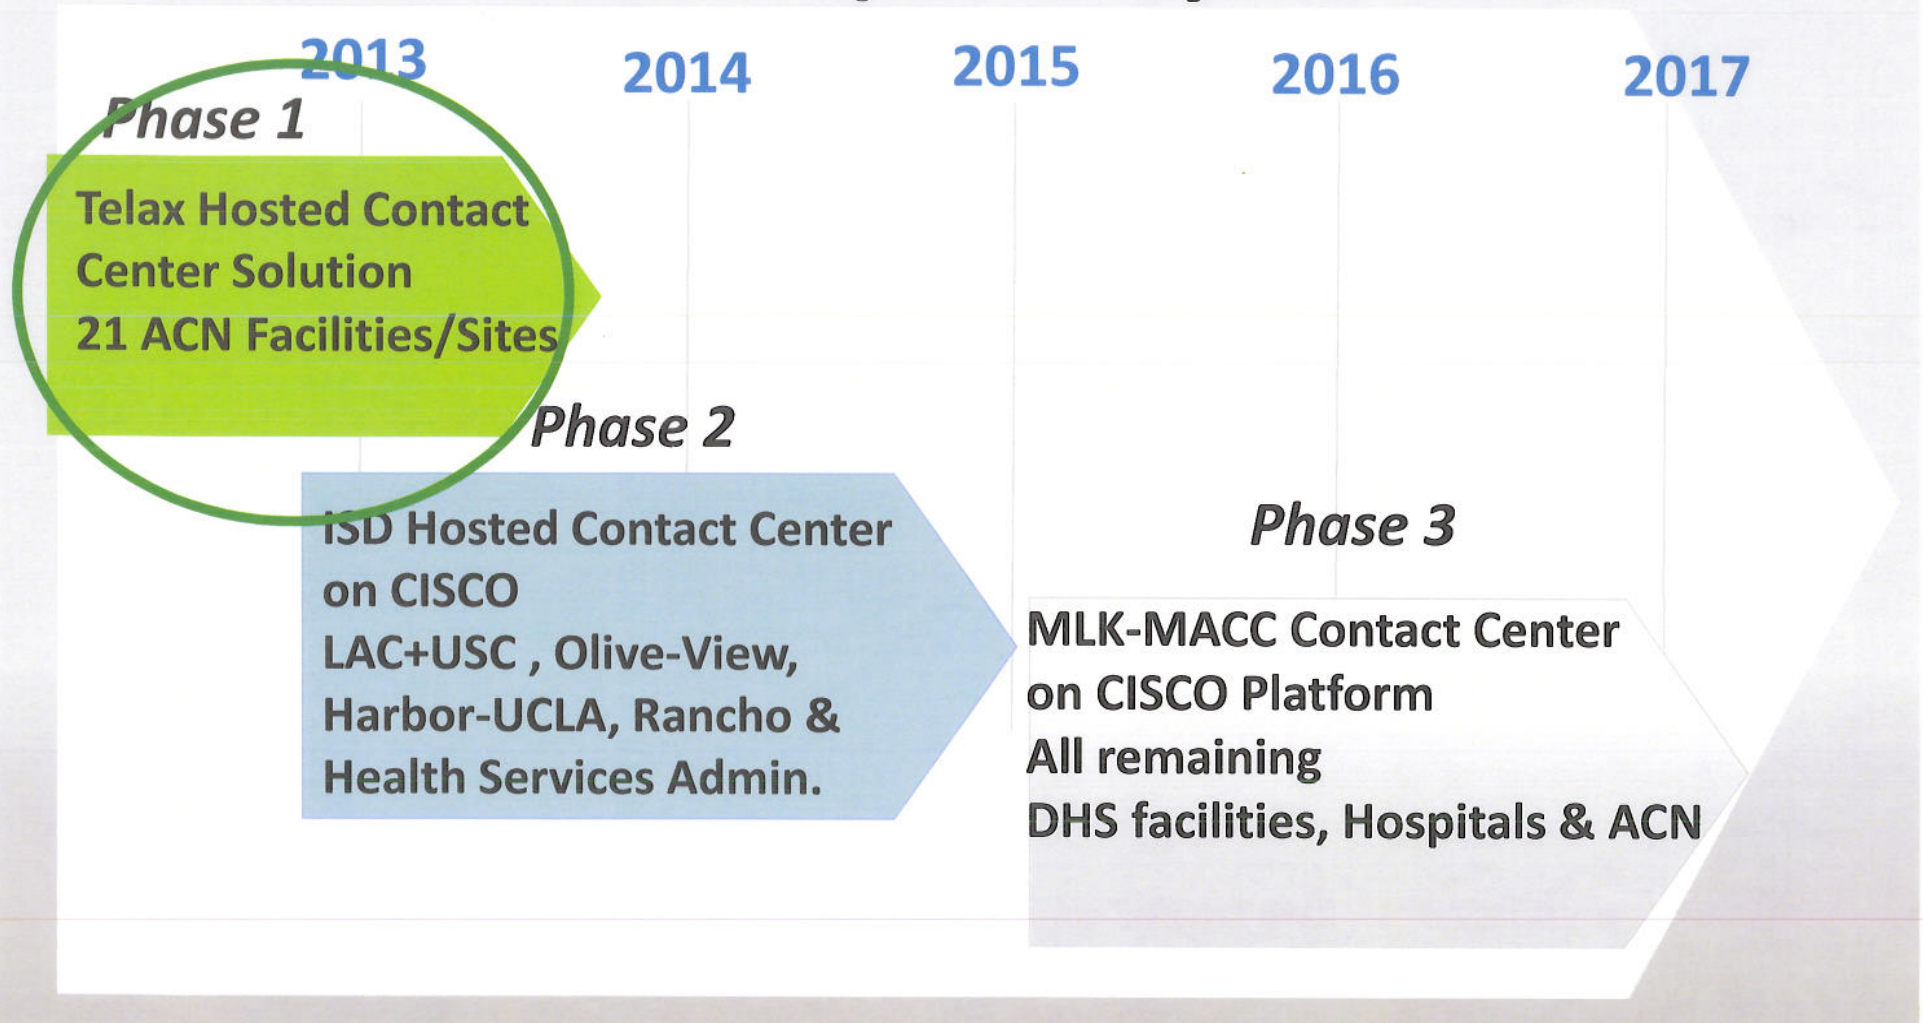

** Rancho had a high LOS because of one patient that had a very long hospitalization that ended this week.

Task Name	% Complete	Start	Finish
Establish metrics & collection method for PCS in ACN clinic settings	100%	1/1/13	2/28/13

As the County-run health care system, Department of Health Services (DHS) is committed to ensuring that residents of Los Angeles County are informed about what the Affordable Care Act (ACA) offers. The ACA, also known as Health Care Reform or Obamacare, means more people will have access to affordable health insurance.

What is the Affordable Care Act?

It's a federal law that began in 2010. It changes how some people get health care in the United States and in Los Angeles County. It is sometimes called the ACA, health care reform, or ObamaCare.
